

DATA ENGINEER

Grow with us as **Data Engineer**, in this position you will be responsible of designing sustainable and scalable data acquisition, transformation, storage, and consumption platforms to seamlessly integrate with overall business intelligence solutions.

WHAT WILL I BE DOING?

In this role, you will be part of our success by:

- Design and build queries and technical solutions for data pre-staging, transformation and consumption.
- Ensure data processes are optimized and sustainable for growth.
- Resolve data ingestion, extraction, preparation and storage requirements.
- Support data governance and data sustainability policies and standards design.
- Consults the business to maximize data efficiencies and effectiveness.
- Convert Data Scientists work into easy-to-consume solutions that call to action.
- Working closely with data warehouse architects and software developers to generate seamless business intelligence solutions for business partners.
- Piloting emerging “big data” technologies to help Kellogg understand how to exploit new methodologies, technologies and tools.
- Advocate for and train the organization during deployment of analytic solutions.

WHAT DO I NEED TO DEMONSTRATE?

As well as a hunger to learn and succeed in to be considered for this position, you must be able to meet the following requirements:

Formation

- Bachelor Degree in Computer Science, Engineering or related field.
- 3-5 Years of experience building data acquisition, transformation, storage and consumption models for business intelligence solutions.

Technical Skills

- Advance knowledge of data architecture and relational models design
- Proficient knowledge of project management techniques (PMI, Agile, Scrum, etc.)
- Advance knowledge of SQL & ability to extract data from various data sources (MS SQL, Oracle, Hadoop, CSV, Excel, Access)
- Proficient knowledge of extraction tools and programming languages.
- Proficient knowledge designing data marts, data dictionaries and data governance guidelines.

Kellogg Company is an Equal Opportunity Employer who strives to provide an inclusive work environment that involves everyone and embraces the diverse talent of its people.
